

ProCredit Bank Germany is a part of the ProCredit group of banks, which operate in eleven countries in South Eastern and Eastern Europe as the “Hausbank” for small and medium enterprises (SMEs) and for private clients. In Germany, we target medium-sized companies that have business relationships with these markets. We work closely with the local ProCredit banks to facilitate the provision of longer-term loans for sustainable entrepreneurial investments in South Eastern and Eastern Europe. As the correspondent bank for the group, we also manage group treasury, international payments and trade finance. With our work, we seek to make an active contribution to ecologically and socially sustainable economic development in the region.

To support our Risk Controlling team in Frankfurt/Main, we are currently seeking a committed

(Senior) Risk Manager for Information Security (m/w/d)

In this position, you will play an important role in the Risk Controlling team of the bank by implementing and continuously developing the bank’s information security program. You will be responsible for overseeing and coordinating the implementation of the bank’s Information Security Policy and ensuring compliance with internal and external information security regulations. You will collaborate closely with colleagues in the bank as well as the bank’s IT service provider.

Your responsibilities

- Performing regular and ad-hoc assessments of information security risks
- Monitoring of systems and network and vulnerability detection
- Follow-up on identified risks and the implementation of mitigating measure in collaboration with the bank’s IT service provider
- Maintaining of access profiles to all resources, review, and recertification
- Overseeing incident response planning and involvement in incident handling
- Contributing to the continued development of the business continuity and disaster recovery plans
- Reporting and formulation of recommendations to management and committees
- Providing awareness trainings for bank employees

Your profile

- University degree or equivalent in a relevant field, with significant experience in Information Security and the banking industry
- In-depth knowledge of common information security standards (e.g. ISO 2700x), tools and processes. Certification, or willingness to pursue, is a plus
- Strong analytical skills. Strong project management and coordination abilities; demonstrated professionalism in managing multiple projects effectively
- Excellent interpersonal and communication skills
- Excellent written and spoken English. Knowledge of German is a plus

In addition, we look for the following qualities in all of our employees:

- You identify with the goals and ethical principles of the ProCredit group and are able to represent them
- You are flexible and open to discussion
- You enjoy working as part of a team and communicate clearly and openly
- You work in an independent, goal-oriented and confident manner

What we offer

- An interesting and diverse working environment with very good development opportunities
- Dedicated, international teams with flat hierarchies and short channels of communication
- Open and clear communication
- A job ticket (for public transportation) and company pension scheme

Have we sparked your interest? If so, we look forward to receiving your letter of application, including a detailed statement explaining your motivation for applying for the advertised position. Please inform us of your salary expectations and earliest possible starting date.
